IMPORTANT INFORMATION:
Umbrella ribs may compress during shipping. To avoid causing permanent damage,
read these instructions before using the umbrella.

UMBRELLA FOR OUTDOOR USE; ADAPTER FOR INDOOR USE ONLY.

CARE INSTRUCTION:
Wash umbrella canopy with a mild solution of soap and water. Rinse thoroughly and
drip-dry in an open position. Do not use bleach or solvents on fabric or aluminum
frame. Keep closed when not in use. Not recommended for use in patio tables. If
used in a patio table, always use with an umbrella base and lower in windy
conditions.

Please be advised that the manufacturer provides a one-year warranty that the 3.36 m / 11 ft Aluminum LED Market Umbrella with Tilt will be free from defects in original materials and workmanship.

**Frame**
Frames are warranted to be free from defects in materials and workmanship for a period of one year. Damage to frames due to improper assembly or exposure to water and sub-freezing temperatures is not covered.

**Finish**
The finish is warranted against peeling, cracking, or blistering for a period of one year, provided the unit has not been scratched or abraded. Scratches and chips resulting from abnormal wear and tear are not covered. Fading resulting from exposure to elements is not covered.

**Fabric**
Fabric is warranted for a period of one year against separation at the seams. Fading or discoloration resulting from exposure to the elements, chemicals, or from spills is not covered.

**Note:** All operation should be according to the instruction manual.

* This warranty DOES NOT COVER the following items:
  Failure caused by unreasonable or abusive use; failure caused by neglect of reasonable and necessary care; acts of nature (including but not limited to wind, hurricanes, tornadoes, and storms) are not covered by this warranty. The product is not covered by this warranty after one year from the date of purchase.

**AUSTRALIA:** Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.
TO ASSEMBLE THE UMBRELLA

Step 1: Remove the flat finial (E), keep for future use.

Step 2: Remove the cap on the finial (B), and connect with the solar panel (A). And then attach them to umbrella. Keep the cap for future use.

Step 3: Have the umbrella securely fastened into an umbrella base. (Base not included)

The batteries will be fully charge after 8 hours of sunlight or 5-6 hours using the AC adapter.

MAKE SURE THE LED LIGHTS ARE OFF FOR THE SOLAR PANEL TO RECHARGE THE BATTERY.

CAUTION: YOU MUST CHARGE BATTERY BEFORE FIRST USE.
Please note that battery can discharge if they are left unused or uncharged for a long period of time. Failure to charge the battery will result in premature dimming of the lights in your solar umbrella.

TO CLOSE THE UMBRELLA

Hold the rope firmly and remove the pin, then release the rope slowly until the umbrella is fully closed. Use tie straps to secure umbrella canopy.

Attention: If the umbrella is stored in a box when not in use, the solar panel and finial must be removed prior to putting the umbrella in the box to avoid damage.
TO OPEN THE UMBRELLA
Before opening your umbrella, gently pull apart and separate the ribs into their natural open position. Pull down the rope until you see the lower hole or upper hole on the tilt, then insert the pin into the hole. At that time, the umbrella is fully open and ready to use.

TO TILT THE UMBRELLA
Have the umbrella pole fixed firmly with base and rotate the canopy clockwise or counterclockwise to your desired position. Continue rotating the canopy to move umbrella into its upright position.

TO USE LED LIGHTS
For everyday normal use, turn the light switch on at night when you want to use the solar light and turn off the switch after use.

NOTE:
a) The Finial (B) contains two lithium batteries (2 x 2200mAh). To charge the batteries using the solar panel, press the switch to the off position during daylight. Charging time depends on the amount of sunlight; however, at least 8 hours is recommended.
b) The batteries can also be charged using the 100V~240V AC Adapter (D). To charge batteries with the AC Adapter, remove the finial/solar panel unit and bring indoors. Place the flat finial (E) on the umbrella to prevent water from entering the umbrella while the finial/solar panel unit is removed. Charging time is approximately 5 - 6 hours.
c) The AC adapter is for indoor use only. Do not use the AC Adapter outdoors.
d) If the umbrella is stored in a box, the solar panel and finial must be removed to avoid damage.
e) This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
