

10ft Square Cantilever Umbrella Crank housing Replacement AIS

1. Unscrew the umbrella from the rotation base and take out the umbrella. (Recommend Team work)

2. Remove screw on supporting rod first.

3. Remove the screws on crank housing and open it.

4. Replace the new crank housing

5. Make sure all inner parts put back in right position. (Please see below pictures)

7. Close the crank housing and Install the supporting rod back to Frame
