

FY20 10ft LED Market Umbrella black plastic cover Replacement AIS

1. Half close the umbrella.

Step A:
Remove the
rib end

2. Remove the screw with a screwdriver. Keep the screw for future use.

3. Use a plier to gently pull out the rib end.

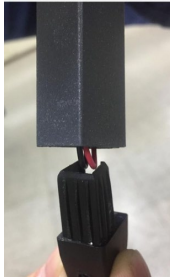

Insert the black plastic cover to the end of the long rib.

Step B:
Install the
black plastic
cover

1. Re-insert the rib end into the rib. Ensure it is fully installed by using a rubber hammer .

Step C:
Install the rib
end

2. Put the screw in the original place. Tighten up.

Open the umbrella and turn the switch on. The umbrella is ready to use.
